NEWS CERSAIE 2026

Impariamo dalla tradizione per investire nel futuro, traendo ispirazione da valori e competenze radicati nel territorio italiano, legati all'arte, alla cultura, alla tradizione artigianale. È così che nascono collezioni dal design contemporaneo che sorprendono per l'impeccabile qualità ceramica e la cura minuziosa dei particolari, da scoprire in una ricca gamma di decorazioni e mosaici che completano l'offerta di superfici diverse, tra cui marmi, cementi, legni, pietre e rivestimenti. Un grande estro creativo è alla base di grafiche d'ispirazione naturale dai colori brillanti, geometrie variegate che diventano tessiture di colore e materia, lamine metalliche scomposte in frammenti preziosi. Vallelunga&Co., come una "boutique", seleziona e confeziona su misura collezioni dai dettagli preziosi e raffinati che caratterizzano superfici di incredibile bellezza.

We learn from tradition to invest in the future, drawing inspiration from deep-rooted Italian values and expertise connected with art, culture, the artisan tradition. Born from this are contemporary collections that catch the eye for their top quality ceramics and microscopic attention to detail, to be discovered in a rich array of decors and mosaics that complement the range of different surfaces, including marble, concrete, wood, stone and tiles. Great creative flair lies behind the nature-inspired patterns in brilliant colours, the varied geometries that become colour and material textures, the metal sheets deconstructed into precious fragments. Like a boutique, Vallelunga & Co. selects and custom produces collections with precious and refined details to create surfaces of incredible beauty.
